

# THE ARMORY

1911 • M1A • M1 GARAND

**RO™**

PI9128LP "RANGE OFFICER™"

Springfield Armory® has just introduced a new 1911 designed for people interested in shooting competitively. It is called— The RO™, "Range Officer™". The RO™ is designed to give the shooter exceptional quality, at an affordable price. One of the goals was to create a pistol that is acceptable in many different styles of shooting competitions, so the shooter can decide which one he likes most. It is built with the same quality as the TRP™ and Trophy Match™ models, but Springfield has removed the "extras" that result in a higher price. It's everything you need in a competition model, at an affordable price, and easily upgradable for your future needs.
