

THE ARMORY

1911 • M1A • M1 GARAND

CHAMPION 1977-A1 PISTOLS have a four-inch barrel and seven-round magazine

4" Barrel
[7.5" Overall Length]

Full-Length Grip
[7+1 Rounds 45 ACP]

Operator

PX9115LP Lightweight Champion Operator

The Springfield Armory® operator pistol was the first pistol offered by a major 1911 manufacturer having a light-mounting rail forged directly into the frame. While others have followed our lead, we still offer the most comprehensive line of 1911 light-rail guns available. The Standard Picatinny mounting platform readily accepts the most popular whitelight and laser illumination devices used by military spec-ops and law enforcement tactical teams. These fully-capable extreme-duty firearms are truly the best of the best.
